

THE INTERCULTURAL SPECIALIST

Our solutions to
help you succeed
internationally

Here at Akteos, we have been helping companies **succeed internationally** for 20 years now.

Our aim is to **develop the intercultural skills** of teams who work in a multicultural environment by giving them the tools they need to understand their environment and decode behavior.

We enable individual team members to become **actors of change** so that intercultural sensitivities can become an **added value** in their company.

Miriam ANDRIESEI - HR Administration Advisor
Alstom Group

I really enjoyed everyone's involvement and sharing of experiences, especially the trainer's energy and enthusiasm. This training taught me openness and structured thinking before responding in certain conflictual situations, taking different background aspects into consideration. The digital learning was interactive with a good balance between theory and practice, stimulating creativity in using different tools.
